Tidal James River Chlorophyll 'a' Criteria Study Eleventh Meeting of Science Advisory Panel March 18, 2016 at Maymont

10:15 Update on Empirical Relationships Report 10:45 Model Validation: Jian Shen will compare results from the new James River Water Quality model with observed data and results from the previous (EPA) model 11:15 Panel Discussion 11:30 Model Validation: Jim Fitzpatrick will present results from the HAB model 12:00 Lunch 12:30 Scenario Analysis (Nikolai Gurdian) 1:00 Scenario Results 2:00 Panel Discussion 2:30 End Meeting	10:00 am	Meeting Overview (Paul Bukaveckas)
Water Quality model with observed data and results from the previous (EPA) model 11:15 Panel Discussion 11:30 Model Validation: Jim Fitzpatrick will present results from the HAB model 12:00 Lunch 12:30 Scenario Analysis (Nikolai Gurdian) 1:00 Scenario Results 2:00 Panel Discussion	10:15	Update on Empirical Relationships Report
model 11:15 Panel Discussion 11:30 Model Validation: Jim Fitzpatrick will present results from the HAB model 12:00 Lunch 12:30 Scenario Analysis (Nikolai Gurdian) 1:00 Scenario Results 2:00 Panel Discussion	10:45	Model Validation: Jian Shen will compare results from the new James River
11:15 Panel Discussion 11:30 Model Validation: Jim Fitzpatrick will present results from the HAB model 12:00 Lunch 12:30 Scenario Analysis (Nikolai Gurdian) 1:00 Scenario Results 2:00 Panel Discussion		Water Quality model with observed data and results from the previous (EPA)
11:30 Model Validation: Jim Fitzpatrick will present results from the HAB model 12:00 Lunch 12:30 Scenario Analysis (Nikolai Gurdian) 1:00 Scenario Results 2:00 Panel Discussion		model
12:00 Lunch 12:30 Scenario Analysis (Nikolai Gurdian) 1:00 Scenario Results 2:00 Panel Discussion	11:15	Panel Discussion
12:30 Scenario Analysis (Nikolai Gurdian) 1:00 Scenario Results 2:00 Panel Discussion	11:30	Model Validation: Jim Fitzpatrick will present results from the HAB model
1:00 Scenario Results 2:00 Panel Discussion	12:00	Lunch
2:00 Panel Discussion	12:30	Scenario Analysis (Nikolai Gurdian)
	1:00	Scenario Results
2:30 End Meeting	2:00	Panel Discussion
	2:30	End Meeting
